SENATOR ALLARD ANNOUNCES \$3 MILLION FOR JEFFCO AIRPORT

WASHINGTON, D.C. – U.S. Senator Wayne Allard (R-Colorado) on Wednesday announced that the Jefferson County Airport has been selected to receive a \$3 million grant from the U.S. Department of Transportation.

“I am pleased to announce this grant for the Jefferson County Airport,” Senator Allard said. “Jeffco is the fourth busiest airport in Colorado, and these funds will help to improve the quality and safety of the facility.”

The funds from this grant will be used to finance the second phase of taxiway construction at the airport.

The Jefferson County Airport has been in operation since 1960, and is located near Broomfield, Colorado.
